About this site

In 2008 the [?Deutsche Forschungsgemeinschaft](#) (German Research Foundation) funded a project for further development of Seismic Handler. In collaboration with the [?Bundesanstalt für Geowissenschaften und Rohstoffe](#) (German Federal Institute for Geosciences and Natural Resources) this project aims:

- new graphical interface
- easier handling of inventory data
- support for more input and output formats
- multi-platform support
- [?python](#) interface
- ...

Because there's only one funded part-time position til 2013 we encourage **you** to participate in every aspect of Seismic Handler. Please **contribute** your scripts, additional programming and so on to us to make it available here for all possible users.

This whole site is a Wiki. As all Wiki pages, this and mostly all other pages are editable, this means that you can modify the contents of this page simply by using your web-browser. Simply click on the "Edit this page" link at the bottom of the page. WikiFormatting will give you a detailed description of available Wiki formatting commands.

This option is **only available** if you register at seismic-handler.org by sending an email to *mw(at)seismic-handler.org*. Your changes will kept assigned to your login.
